📍 Karayel sk. 14 UMRANIYE/ISTANBUL, 34762 Istanbul

Education

High School 09/2018 - 08/2022
Cakmak Final Anadolu High School, Istanbul

Bachelor's Degree - Software Engineering (English) 10/2022 - Present
Istanbul Health and Technology University, Istanbul
I hold leadership positions such as Vice President at our university's IEEE club and Department Representative for Software Engineering. Additionally, I am continuing my role as a student assistant. Through these responsibilities, I am enhancing my teamwork, organizational, and communication skills. Simultaneously, by participating in various projects, I am strengthening my analytical thinking abilities and problem-solving skills.

Projects

AkademISTUN Academic Platform 08/2023 - 10/2023
Project - Project Manager, Full-Stack Developer
Istanbul Health and Technology University, Faculty of Engineering and Natural Sciences Dean's Office, Istanbul
I served as the Project Manager and Full-Stack Developer in the development of an academic social media project, initiated by the university dean's office, aiming to connect academicians socially within the university. I formed a team of 6 members, organized tasks, and conducted regular meetings to complete the development process.
The project was systematically developed on GitHub with regular commits. Technologies such as **ASP.NET Core**, **Entity Framework**, **JavaScript**, and **Bootstrap 5** were utilized in the project's development.

mehmetakifvardar.com Portfolio 07/2023 - 08/2023
Website Project - Full-Stack Developer
I developed my own portfolio website, believing the need for a platform to share information about myself and my projects. Working on both the Front-End and Back-End, I completed the project in approximately 1 month of development. **ASP.NET Core MVC** and **Bootstrap 5** technologies were utilized in the development process of the project.

I consent to the processing of my personal data for the purpose of recruitment for the position to which I am applying.

Sample Restaurant Website Project – Project Manager, Front-End Developer

05/2023 – 05/2023

I took on the roles of Project Manager and Front-End Developer in a team of 4 students for the development of a website required as a term project. We utilized **Bootstrap 5** technology. Our project received accolades in computer and software engineering departments and was presented in our club's workshops and university presentations.

Grin's Journey – Game Developer

01/2023 – 02/2023

I developed my mobile game named 'Grin's Journey,' creating all its elements within 19 days. After the project, I published it on Google Play Store under the name MAV Development. The development process involved the use of **C#** and **Unity** technologies, following the principles of Object-Oriented Programming (OOP).

Cubevelo – Project Manager, Game Developer

11/2022 – 01/2023

I served as the project manager and game developer in a team of 3 for the game development task assigned as a term project. In a development period of approximately 3 months, the game we created was presented as the 2nd place in the department and showcased in workshops and university presentations. It received positive feedback from students across the university. The project was developed using **C#** and **Unity** technologies, following the principles of Object-Oriented Programming (OOP).

Volunteer Projects

Library Game Project – Game Developer

10/2023 – Present

Istanbul Health and Technology University Library, Istanbul

Our team, assigned by the university library department, is currently developing a web-based game centered around arranging books. The game is intended to be published on the upcoming library website. Working as a team of three, we are using **Unity** and **C#** technologies to continue our efforts on the project.
